## Application for Summer Service Learning 2025

Youth Stewards

The Food & Ecology Partnership is a partnership of 8 community organizations who come together to increase access to fresh food and improve the sustainability of the Fargo-Moorhead foodshed.

Youth Stewards is a summer service-learning program designed to introduce youth to sustainability, food production, and job skills. We use outdoor instruction, individual projects, and hands-on gardening experiences. Our program intentionally recruits youth from groups that are under-represented in contemporary farming.
